TRANS

FAMILY

HOLDEN

REMAN, TRAI

Generally when your transmission fails, you have three choices: . Buy a second hand transmission 2. Buy a new transmission. or . Buy a re-conditioned transmission

GM Holden gives you another, much better option, a Remanufactured Transmission

lore Conveni

GM Holden Remanufactured Transmissions are easy to install as complete units.

Simply unbolt your old transmission and bolt on the new GM Holden Remanufactured Transmission after following a few simple procedures.

GM Holden Remanufactured Transmissions are subject to detailed and effective emanufacturing process to ensure product quality including:

All transmissions to be remanufactured are completely disassembled.

All obviously worn and mandatory replacement parts are scrapped.

All passed components are washed and de-greased at high pressure.

Quality control systems ensure that all retained parts are checked and those that don't make the grade are scraped.

All dimensions and tolerances are carefully checked.

Every valve body is checked and tested to ensure it meets manufacturer's specifications.

Sub assemblies and components are built, tested and moved to final assembly line.

All units are leak checked on line to ensure proper assembly of sub components.

All bolts are individually torqued to ensure proper clamp load and monitored with statistical process control to ensure continued accuracy.

Each and every Transmission must pass extensive Dynamometer tests to be 'approved for use' by the original manufacturer as a Remanufactured Transmission.

Each unit purchased & fitted by a Holden dealer is covered for both Parts & Labour Australia wide through the Holden Dealer network.

All transmissions are sent with fully traceable consignment notes.

Fransmission Identification Guide

Metallic I.D. tag in correct spot on

Transmission housing transmission housing

Yellow Sticker indicating DYNO test passed.

Every GM Holden Remanufactured Transmission includes the following new replacement parts - only Genuine GM Holden Parts are used.

> All seals, o-rings, sealing rings and gaskets.

- > Oil pump vanes and rings.
- > All bearings, thrust races and washers.
- > All filters and screens.

Input carrier gear pins and bearings.

- > Output shaft snap ring.
- > Front seal retainer
- Magnet chip collector
- > All bands and friction plates.
- > Pump bolts and seals.
- Case bush
- Converters remanufactured to GM specifications
- > All pistons with moulded seals
- Variable force motor and 3-2 control solenoid
- > Valve body spacer plates.

All solenoids are cleaned and tested for functionality - those that do not meet manufacturers specifications are replaced with new

All bushes that are out of manufacturers specifications are replaced with new OEM bushes.

Regardless of the age of the transmission, all components are upgraded to the latest specifications during the remanufacturing process.

Trans ission Warranty

GM Holden Remanufactured Transmission warranty policy is applicable for 2 years or 50,000 km from the date of fitment, whichever comes first.

Prior to transmission fitment to vehicle, please inspect the transmission for damage. If there is any damage, please contact Steven Garland via email with photos indicating the damage, steven.garland@gm.com. For further clarifiation, please refer to the GM Parts Policies and Procedures Manual

This parts warranty covers only repairs and / or replacements caused by defects in material and / or workmanship

The exceptions to this are:

TEHCM cover

> Parts that have been subject to deliberate abuse

Conditions resulting from normal wear, negligence, alterations or accidents

> Parts used in an incorrect application or parts that are not used for their intended purpose
