

# Hyundai remanufactured exchange transmissions.

## Genuine. Convenient. Cost effective.

Now there's an even more cost-effective option to replace transmissions with a Hyundai quality guarantee; a Hyundai remanufactured exchange transmission. Delivered as a complete unit, they're easy to install, come backed with Hyundai Genuine Parts and a 2 year/40,000km warranty\* (whichever comes first)-

### Quality guaranteed.

A Hyundai remanufactured exchange transmission is subjected to stringent quality control measures during the remanufacturing process and comes with Hyundai Genuine Parts replacements.

- Environmentally friendly, no transmissions end up in landfill, parts are recycled.
- Mandatory replacement parts include:
  - All seals, o-rings, sealing rings and gaskets.
  - Oil pump vanes and rings
  - All bearings, thrust races and washers
  - All filters and screens
  - Input carrier gear pins and bearings
  - Output shaft snap ring
  - Front seal retainer
  - Magnet – chip collector
  - All bands and friction plates
  - Pump bolts and seals
  - Case bush
  - Torque converters remanufactured to Hyundai specifications
  - All pistons with moulded seals

• To meet manufacturer's specifications and approval, all dimensions and tolerances are checked, valve bodies tested and bolts individually torqued to ensure proper clamp load. The transmission must then pass extensive leak and Dynamometer tests.

### 2 year/ 40,000km warranty\*

Hyundai remanufactured exchange transmission parts warranty covers repairs and/or replacements caused by defects in material and workmanship. It does not cover:

- Parts that have been subject to abuse.
- Conditions resulting from normal wear, negligence, alterations or accidents.
- Parts used in an incorrect application or parts that are not used for their intended purpose.

### Easy to order. Easy to install.

You can order a Hyundai remanufactured exchange transmission at [www.fluiddrive.com.au/Hyundai](http://www.fluiddrive.com.au/Hyundai). To ensure you're ordering the right unit, we suggest you cross reference the part number of the failed transmission, with the details in MOBIS for your VIN and the Fluid Drive order form. We'll then deliver your remanufactured exchange transmission as a complete unit so all you need to do is unbolt your old transmission, and bolt on the new one following a few simple procedures.

### Returning the core.

To avoid processing delays, please ensure all cores are returned promptly, and please use care not to damage the case. We recommend you do this by draining as much oil as possible from the transmission, and by carefully repacking the core in the same packaging, and using the shipping plugs and caps that the replacement transmission arrived with.

Once you've ensured the core is packaged securely and is environmentally safe to transport, please contact CEVA on 132 422 quoting Fluid Drive Account Number FD4000 to organise a pick-up. You'll need to supply the part No and serial number and have it returned to:

**Fluid Drive Pty Ltd**  
**5/73 Gower Street**  
**Preston, VIC 3072**  
**Ph: 03 9485 9777**

\* Hyundai remanufactured exchange transmission parts warranty is either:

- 2 year / 40,000km parts warranty for non-commercial vehicles or,
- 1 year / 20,000km parts warranty for commercial vehicles
